

ADD-ON CRIB TOP

When your patients need extra safety precautions, our Add-On Top can help you leverage your investment in Hard Manufacturing Standard or Movesafe Cribs already in your facility. The Add-On Top can be retrofitted onto most of our existing cribs, and is intended for permanent use.

KEY BENEFITS:

- Adds 17" in height to our Cribs
- Includes 4 soft-sided clear vinyl curtains so the child has a full 360 degree view of the surroundings
- Side curtains raise to allow for caregiver access
- Ends will also raise for specific crib models or can be requested.
- A vinyl top / ceiling cover can be purchased with the add-on top for maximum protection
