STANDARD CRIB ACCESSORIES

When your child needs extra safety precautions, our Add-On Top can give you peace of mind that they have a safe environment to rest in.

The Add-On Top can be retrofitted on existing cribs as well.

For additional protection of the most active children, we also offer a vinyl ceiling cover which can also be retrofitted on existing cribs with tops.

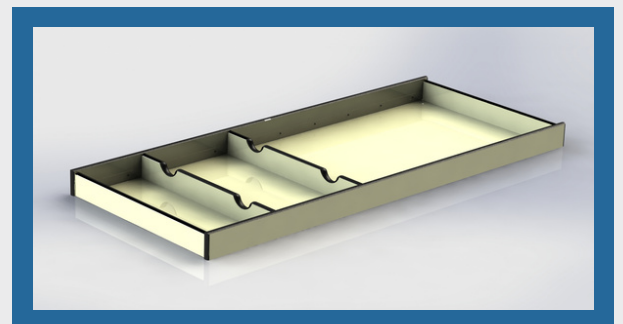

Our Oxygen Tank Holder is designed to hang from any side rail in a place best suited for the child's needs, and can accommodate tank sizes D and E.

Our Standard Cribs can accommodate up to 4 IV Poles. They can be mounted on any corner post.

An Under Crib Shelf can provide much needed storage space for supplies or it can accommodate 2 oxygen tanks.

Shelves can be configured appropriately for your preference.
